I bet the skiing is phenomenal with all the snow the east is receiving. Silver Mountain and Lookout Pass ski areas are doing OK. I am torn between skiing and mountain biking. No, no golf for me. I hope that every one is enjoying mother nature in their own way.

I will use a great example of how to clean up the Wallace Yard and the spur lines into Canyon and Nine Mile areas. Cover the spur lines in the same way as the Trail of the Coeur d' Alene's. No removal of contaminated soils. Possibly vitrification or soil to concrete with an asphalt cap. These spur lines would add immensely to the already popular Trail of the Coeur d' Alene's.

Shoshone County does not have a county fair grounds. This is what I propose for the old Wallace Railroad Yard. The Community Fill Policy combined with Vitrification could be utilized to construct tennis courts, basketball courts, horse shoe pits, shuffle board lanes, a baseball diamond/ football field, corrals and an arena for rodeos. Maybe even a dirt oval for racing. It goes on and on.

I hope you find these ideas of interest, thank you,

Larry Halley
